

# Lochwinnoch Church

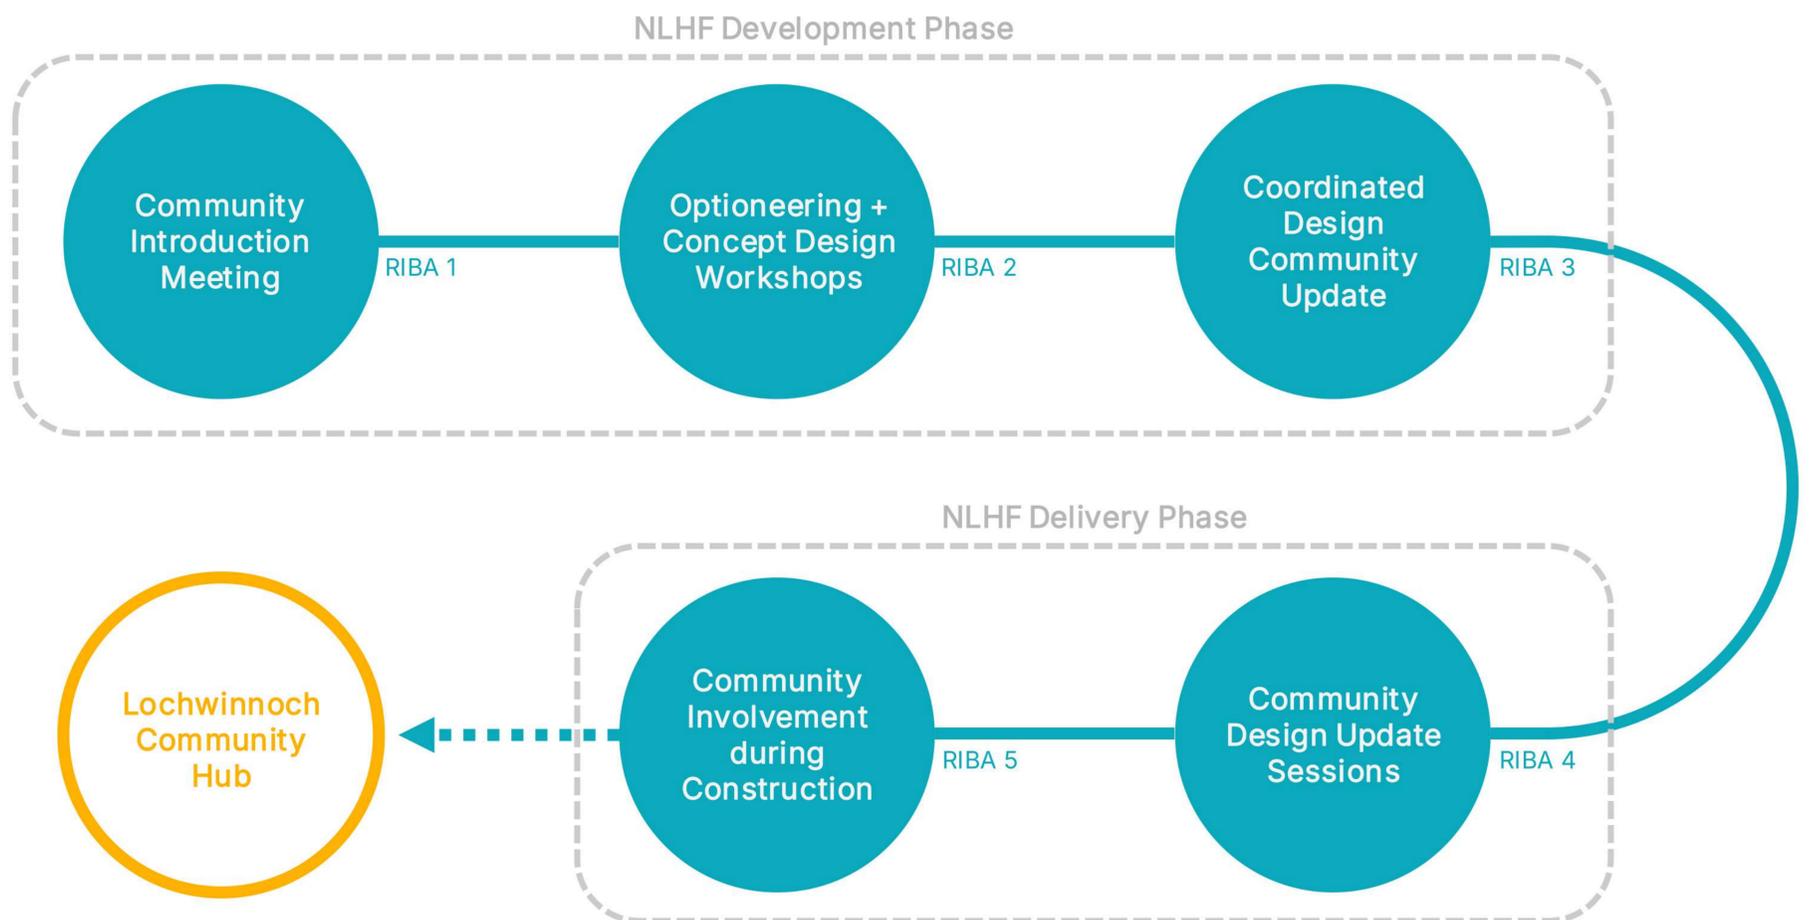

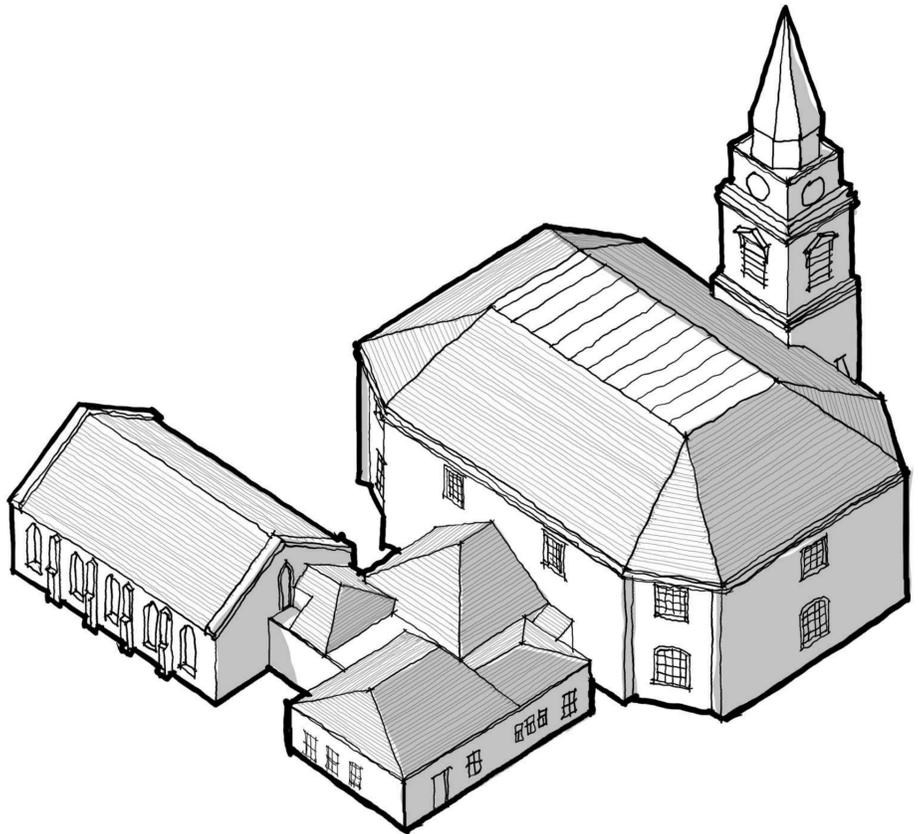

## Creative Community Hub

### Transformation Project

Lochwinnoch Community Development Trust is working to secure and revitalise the Category A Listed Parish Church, saving it from further deterioration and bringing this much-loved historic landmark back to the heart of village life. Through sensitive repair and adaptation, the project will reimagine the church as an accessible, welcoming and sustainable creative community hub for people of all ages.

This transformational project will deliver flexible, well-designed spaces that celebrate their heritage and character, support a wide range of activities, events and gatherings, and place the community at their heart.

Throughout the development process, we will work hand-in-hand with the Lochwinnoch community to understand needs, test ideas and shape a community hub that both honours Lochwinnoch's heritage and provides accessible, adaptable facilities for the future.
